

Jim & Jennifer Parvis

Dear Friends and Family,

September 2009

Psalm 127:3 says, "Lo, children are a heritage of the Lord: and the fruit of the womb is his reward." The Lord blessed our family again with the birth of Kloe Grace Parvis on July 14, 2009 at 8:02 PM. She weighed 8 lbs 12 oz and was 21 inches long. After a few days of treatment for jaundice mom and baby were doing well. Though this is our fifth child it still amazes us that God could create such a perfect little person in a few months time. It also reminds us that we are all born with a sin nature and are in need of a Saviour

Mid July found us in full swing at Bible School with Calvary Baptist Church in New Bern, NC. A month before the birth of Kloe I was building scenery and Jen was painting the new puppet stage that would be used for Bible School. A few members of the church were helping with the project. Our goal was to have 100 kids in attendance and by the end of the week we had reached 100 different children. Our new van was used nightly to go into the trailer parks surrounding the church to bring the children in. Fourteen kids were saved that week...Praise the Lord!

Bro. Jack Hunt represented Mission Aeroservices in Osh Kosh, WI at the "Meeting in the Air" hosted by Wyldewood Baptist Church. Bro. Jack is part of the flight camp giving flight instruction to young men ages 14-21 who have an interest in Missionary Aviation.

In early August we traveled to Faith Baptist Church in Delaware which is our sending church. Pastor Ken Johnson hosts a week long camp for the community free of charge as an outreach. Our children were reunited with friends and enjoyed a week of camp too. Fifteen children were saved that week. It has been an exciting summer! We then headed to upper PA for a meeting with Pastor Peter Zengel. He and his young son are very interested in Missionary Aviation. We enjoyed sharing the ministry of Mission Aero with him as well as the fellowship with his family. It is a privilege to meet many wonderful saints of God.

Among all our travels Grayson had a mild case of Rocky Mountain Spotted Fever. We praise the Lord that he responded well to the antibiotics and is doing just fine.

September is here and our children are back to their school routine. We have had several cases of the Swine Flu in our local Christian School. Please pray for protection of the students as they continue to attend classes and for us as we continue to travel and raise support.

God has been so very good to us and we are praying about the possibility of insulating and siding our house before winter arrives. The cost of fuel keeps going up and our home is older and has no insulation. God continues to meet our needs and we thank Him for what He allows us to accomplish.

Looking up for His return,

Jim & Jennifer Parvis

Wyatt, Logan, Grayson, Shelby, & Kloe
